

## Welcome

The day- to- day activities of running a business can often get in the way of doing business. And in few professions is that more true than **in the world of medicine where medical billing, claims processing, and record keeping can be a monumental effort.**

With medical billing and reimbursement becoming increasingly complex and as the knowledge needed to perform essential functions becomes more specialized, many health care providers have looked to medical billing reimbursement specialists (medical billers) to assist in managing their accounts receivables.

**"We help doctors make the money that they are supposed to be making by taking care of the back-end medical billing service."**

Some medical practitioners will attempt to have inhouse employees do their medical billing for them. However, this is a very intricate specialty and often very hard to keep up- to- date with.

We can help. Your Medical Biller, LLC is a professional consulting medical billing company that offers medical billing management services that **allows medical professionals to get on with the business of medicine** - instead of worrying about all the accounting issues of medical billing their patients.

At [Your Medical Biller](#), we have **two goals**: To relieve medical professionals of tedious detail work, and to maximize your return from insurance carriers by submitting accurate medical insurance claims the first time.

**"We bill the insurance company for the doctor on behalf of the patient, and follow- up on claims until claims get paid by the insurance company."**

Your Medical Biller is an experienced medical billing company that offers **outsourced medical billing services**. We are a medical reimbursement consulting firm dedicated to helping medical practices become more efficient and save money by allowing them to out- source their insurance processing and medical billing to an expert reimbursement service.

Our services relieve medical professionals of tedious detail work, and offer a means to substantially maximize your practice's

bottom line. Your Medical Biller will not only free office staff for more crucial tasks, but will also maximize return from insurance carriers.

#### Statistics indicate that...

- It costs a medical practice anywhere from \$6.00- \$10.00 to submit a claim. We can reduce these costs and save you value time, effort, and money. Use of the latest technology will save your practice time and money on all your medical billing needs. That is why Your Medical Biller exists, to handle the ☐Insurance Headache☐ for you.
- Turnaround on paper insurance claims to be 30, 60, even 90 days or longer, creating serious outstanding receivables for the practice. By submitting claims electronically using state- of- the- art software, we can generally have money in the physician's hand in a much shorter time frame. Of course, this reduces outstanding receivables proportionately and tremendously improves cash flow.
- A 30 percent suspension/ rejection rate for paper insurance claims. This doesn't mean that the claims are never paid. What it does mean is medical staff must hassle with insurance carriers over payment. With the extensive editing performed on electronic claims prior to their transmission to carriers, this percentage is reduced to 2-3 percent.

Your Medical Biller, LLC understands that each medical practice is unique. Even practices of the same specialty will have different staff and offer different services. Your Medical Biller, LLC will evaluate the needs of each practice and offer solutions to help the practice become more efficient. Some may want all the services we offer and some may select only a few. Our medical billing services are customized to each medical office's needs.
